Project

D S Simon Productions

Application

HD Broadcast TV Studio

Technology at work

PatchAmp Audio & Video Distribution & Patching

NewTek TriCaster

Sony EX3 Camera Systems

Mackie Audio Mixer

Harris Conversion Equipment

Telex Intercom System

[D S Simon](#) recently built their new HD studio with the collaboration of [AMV Broadcast Sales](#), who supplied all the equipment, and [PatchAmp's Integration Services Division](#). The studio has in-house capability for production of talk shows, corporate video, webcasts, satellite and internet media tours and event broadcasting. The entire system was staged at PatchAmp's Hackensack facility. PatchAmp's System Integration Group pre-wired, harnessed and tested the entire system prior delivery to D S Simon for installation. This reduced the installation time, as well as significantly minimizing the on-site labor cost.

"Four days after we moved in we were on air with a four-hour live national broadcast that went flawlessly," says Douglas Simon, President & CEO at D S Simon Productions. "The expertise and support they provided was unmatched. We have the best mid-sized HD studio in New York."

D S Simon Productions has been a leading media and business communications company since 1986, They are an award-winning broadcast PR and social media video firm specializing in Satellite Media Tours, Internet Media Tours, B-Roll production and distribution, Corporate and Web Video, Video Players, Ground Tours, Co-Op Tours and Radio Tours.
